Our RED STONE is acknowledged to be **The Ideal Shade** of Red and its quality is unsurpassed.

Send for price list and samples.

JAMES & MARRA,

73 Franklin Street, - - SPRINGFIELD, MASS.

"A KEY TO COOKING,"

UNLOCKS MANY KITCHEN MYSTERIES.

It does not give general recipes but illustrates general principles to meet difficulties cooking books so often raise. A good cookery book is a useful ally to the most experienced, but a blind guide without a knowledge of the first principles. Its author, Catherine Owen, says of it:

"I do not think anything I shall ever be able to write will be more valuable to the inexperienced cook than 'A Key to Cooking.'"

Read what the "*Homestead*" says of it:

"The 'cook-book' is a common enough thing nowadays. It is left on your door step, presented by your grocer, and it hangs in the drug store in a many-hued cover and labeled 'Take one'—bushels of formulas and rules. But one of the signs of the times is the *literature* of cooking that is being produced, of which 'A Key to Cooking,' published by Clark W. Bryan & Co., publishers of *Good Housekeeping*, Springfield, Mass., is a little gem. The author, Catherine Owen, is a well known writer on cookery, and embodies in this book her choicest knowledge of this most important of arts. A careful reading of the 'Key' will unlock many of the mysteries of the cuisine and insure freedom from dyspepsia."—*The Homestead, Springfield, Mass., April* 23, 1887.

It is sold by the booksellers and newsdealers of the country, or can be obtained by sending 25 cents to the publishers,

THE PROVIDENTIAL TILE WORKS,

Manufacturers of

Superior Embossed

—AND—

ARTISTIC TILES

FOR MANTELS, HEARTHS, DADOS

—AND—

ARCHITECTURAL DECORATIONS.

P. O. BOX, 603. TRENTON, NEW JERSEY.

These Tiles possess the best qualities in point of manufacture. The body and glaze is hard and strong. The colors are rich and brilliant. All goods are of first quality, and are sold at prices that compare favorably with the chalky clay tiles covered with soft enamels, easily cut with the knife, and damaged by slight abrasion, that are almost universal in the market.

In Artistic merit our Tiles are recognized as Superior to all others. They are used as models of imitation in the Art Schools of Europe, and by their best manufacturers.

The new Renaissance in architecture in which color surfaces play so conspicuous a part, can be fully realized with our beautifully and imperishably Glazed Tiles. Exterior and Interior decorations brought into harmony with the conception and design of Architects.

CLEVELAND

ESTABLISHED 1844.

PATENT SOAPSTONE FINISH,
Plain and in Colors, for Walls and Ceilings.

SOAPSTONE MORTAR,
Prepared in Black, Red and Gray, for laying Front Brick, Chimneys and Fire Places.

The Potter Blackboard Material for School Buildings, Etc.

OFFICE OF

AMERICAN SOAPSTONE FINISH CO.,

Chester Depot, Vt., Jan. 1, 1887.

Gentlemen:

Our Works at Nashua having been partially destroyed by fire, we have built a new and larger mill at **Chester Depot, Vt.,** *where we are in close proximity to some of the largest and best Soapstone Quarries in the country, directly on the line of the Central Vermont Railroad, and we are now prepared to fill any orders at short notice.*

Please address all orders and enquiries as above. Send for circulars.

We append hereto an extract from a recent publication that briefly but clearly sets forth the value of our Finish and Mortar and to it we invite your attention.

Yours Respectfully,

AMERICAN SOAPSTONE FINISH CO.

PATENT SOAPSTONE FINISH.

"The Patent Soapstone Finish has been somewhat in use for several years past, but its great value as a finish-coat for walls and ceilings in lieu of 'hard or sand finish,' is becoming more widely known, and the day is not far distant when it will be generally used for that purpose. The Patent Soapstone Finish is a soft, blue-gray in color, pleasant to the eye; it is comparatively elastic and free from what is known as 'chip-cracks,' or 'map-cracks;' it is a non-absorbent and can be washed without injury; if covered with paper it requires no sizing, an article composed largely of glue, an animal matter that is frequently offensive in warm damp weather; it is a most excellent surface for painting or decorating and can be completely covered with two coats of oil paint, while always three, and frequently four or five coats are required for any other finish. No sizing is required with either oil or water colors.

Besides the plain finish (as this soft, blue-gray is called), the soapstone finish is manufactured in almost every shade except blue and green, making a coat that is in itself superior to paint, at less than half the cost.

Soapstone is also utilized in the manufacture of colored mortar for laying pressed or enamelled brick, terra-cotta, or stone; its non-absorbing qualities prevent the colors from washing or fading, and prevents the discoloration of brick or stone that has so frequently disfigured our fine buildings.

This mortar is also specially valuable for laying chimney-tops or fireplaces, as the gases from burning coal or wood do not affect it."

The American Soapstone Finish Co. is also the owner of the patent for and the sole manufacturer of what is now well-known as the "Potter Blackboard Material," an article that makes a blackboard equal to slate and at less than quarter its cost.

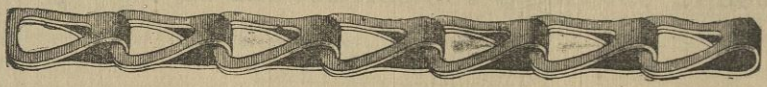
P. O. Drawer No. 26,

BRIDGEPORT, CONN.

"Giant" Metal Sash Chain



The most reliable and economical article in the market for hanging weights to windows.

NO MORE BREAKING OF CORDS.

It is made automatically, of an anti-friction metal. Made expressly for this use and for us only. It has great tensile strength and does not corrode or lose its vitality by continuous use or exposure to the elements. It does not require a special pulley, and the fixtures for attaching it to the weights and windows are very strong, cheap and easily applied. It gives satisfaction where ever it is used. *Is very low in price.*

If a cord breaks send for enough of this to hang your window, and try it.

Samples sent to any address on application. If you are going to build a house, don't decide to use cord until you have first seen a SAMPLE of the

"Giant" Metal Sash Chain,

Adopted and in use by the United States for all their public buildings; J. C. Flood's magnificient mansion in Menlo Park, Cal.: State House, Hartford, Conn.; City Hall, Providence; Singer Building, Chicago; United Bank Building, Boreel Building, Van Corlear Flats, New York; and many other buildings in all parts of the U. S.

SEND FOR PRICE-LIST AND SAMPLES.

Also manufacturers of the "JEWETT" patent double and single acting SPRING-BUTTS, and special single and double grooved window pulleys. And patented balancing fixtures for hanging extra heavy glass windows.

BROWN-STONE QUARRY.

THE BRAINERD QUARRY CO.,

Portland, Conn.

The PORTLAND BROWN-STONE QUARRIES are the most extensive in the world, and have been worked for upwards of one hundred and fifty years. During a few years past, the Stone has been very extensively used as a Building Material in the principal cities on the coast where it may be seen in the form of splendid Dwelling-Houses, Churches, Stores, etc., in all the various styles of architecture. Also, Rubble and Junk Stone for Churches, Depots, Piers, Docks, Bridges, etc. Fifteen hundred workmen have been annually employed in these quarries, and from fifty to seventy-five vessels employed in transporting the stone to market.

THE "WILLER"

——PATENT INSIDE——

SLIDING BLIND.

The most improved and only first-class Sliding Blind in the market.

Adapted to all Styles of Buildings.

The only Sliding Blind with Rolling Slats in any or all sections. Slats operated by a new method, without the unsightly rod in front. Slats remain in any position.

Springs are adjustable to suit weight of blinds, enabling blinds to always run smoothly and evenly in the grooves.

Blinds can be removed from the window in an instant for dusting or cleaning

All sections operate independently of each other and are not connected by cords or otherwise.

The sash can be removed without removing the blinds.

Pockets may be placed at the top, at top and bottom, at bottom only, or no pockets at all, as desired.

Made to order only in Pine or Hardwood, and Oil Finish complete, Cabinet finish, all complete, with hardware, ready to fit to window.

For further information and 84-page Catalogue, apply to

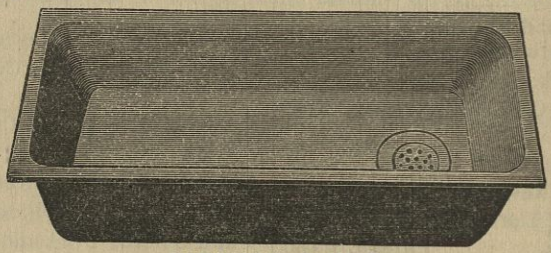
THE CAST SINK MUST GO!

THE "COLUMBUS"

WROUGHT STEEL SINKS.

ODORLESS.



INDESTRUCTIBLE.

KITCHEN SINKS.

These Sinks are made from one plate of steel. and are superior to cast-iron sinks in every particular, being *Lighter, Stronger and More Durable.*

It is well known that cast-iron sinks break easily in shipping, storing, placing in position for use, and from various other causes, adding largely to average cost to plumbers and dealers, and annoyance and loss to users.

These Sinks being of *Wrought Steel*, will not break from heat, cold, or any cause whatever. Steel being less porous than cast-iron, they are comparitively odorless, and their greater elasticity avoids the breakage of dishes.

The bowl and projecting thimble are stamped in one piece from the same plate, and we are enabled to attach strainer and pipe more satisfactorily than is possible with cast-iron sinks.

Our improved brass coupling furnished without extra charge, for either wrought-iron or lead pipe, is pronounced by all plumbers the best thing in the market.

We furnish these Sinks, painted, galvanized and enameled at prices—freedom from breakage considered—less than for sinks made from cast-iron.

Work and Wages.

A MONTHLY JOURNAL FOR PROMOTING BETTER RELATIONS BETWEEN LABOR AND CAPITAL.

ONE DOLLAR A YEAR. SINGLE COPIES 10 CENTS.

Work and Wages has been recognized by the press, and by all classes of readers, as the most valuable periodical devoted to the practical economic questions of the day. It is independent and candid, presenting both sides of every controversy.

ITS PROGRAMME:

1st. Truthful information. Helpful Suggestions, a Harmonizing purpose.

2d. Ethical conceptions of Life, Property and Labor.

3d. Views of the Duties of the Government, based on Experience, not on Speculation.

4th Discrimination between the Uses and Abuses of Labor Organizations.

5th. Unbiased accounts of what is actually being done by Cooperation, Profit Sharing, and in other ways to unite the interests of Capital and Labor.

6th. Editorial comments on the Economic events of the time.

7th. Notes of Economic and Sociological thought.

8th, and lastly. We shall have no Party, Class or Dogma to serve.

It is a most praiseworthy enterprise, planned in a broad and generous fashion, for the purpose of affording a field for a fair and frank discussion of the great question now upon us.—*Springfield Republican.*

THE ARCHITECTURAL

OOD PRESERVATIVES

AND

WOOD SURFACERS

Manufactured by the *Chicago Varnish Company*, are gaining a splendid reputation for themselves. They are made upon an entirely new principle, unknown to any other manufacturer in the world. This is the fourth year since they were put upon the market, and they have earned nothing but praise from all who have used them.

Of our *Supremis*, *Shipoleum*, and *Carrera Wall Size* we have this to say: they keep out all dampness, closing the surface effectually against moisture, poisonous germs, etc. Salt and fresh water do not injure them in the least: they are proof against ammonia, perspiration and alkali: mud and snow do not spot them: they are all easily applied like ordinary varnish, have a pleasant odor and dry with great rapidity.

SUPREMIS *Permanent Floor Finish* has all the beauty of the finest Wax Finish, without its dangerous slipperiness. It is far more easily kept in order, greatly outwears it, costs no more applied, and does not show scratches.

SHIPOLEUM has no equal as an interior finish. It has a fine lustre, or may be rubbed to an oil or dead finish. It is indispensable in Bath-rooms, on Windows-sills, Laundries, Stables etc. Boat Builders say it has no equal.

Carrera Wall Size is an excellent fence against dampness, excrescences etc., and is admirable for basement walls.

We also make a very fine line of the ordinary Interior Varnishes as below;

CRYSTALITE: a very pale article for preserving the natural color of very white woods. It scarcely darkens them a shade and makes a superb finish when polished.

DURABLE OAK: this has a very fine *lustre*, and is splendidly adapted for grained work, Church and School Seats etc.

HYPERION FINISH is a very superior rubbing varnish and makes a most beautiful surface. It is not so costly as the Crystalite and may be sooner finished.

HARD OIL: we make inferior to none, and cheaper than any of the above superior goods.

NORTHROP'S PATENT

PANELED METAL CEILINGS.

Durable. Will not Crack, Stain or fall off like Plaster. No amount of Jarring or Wetting will take it off.

Fire Proof. Will not shrink, warp or burn like wood. In combination with Asbestos is practically fire-proof.

Light. The weight is only one-sixth the weight of plaster. A large item in estimating necessary strength of Ceiling in Roof Timbers

Cheap. Plain ceilings cost but little more than plaster. Ornamental designs no more than other ornamental ceilings.

Artistic effect. The Metal is beautifully ribbed or cross ribbed giving the effect of Woven Texture. Mouldings and Rosettes in Bas-Relief. All can be Painted or Bronzed in Colors to suit.

Acoustic. Properties far superior to any other material so asserted, in reference to every Church and Hall in which it has been used.

These ceilings can be put up over old broken plaster or wood in much less time than it takes to re-plaster, causing none of the dirt and muss of plaster. The best material that can be used in case of building's damage by fire.

THE PAPER MILL DIRECTORY OF THE WORLD.

THE STANDARD WORK.

Gives more information, contains more mills, and is the only reliable work of the kind published.

PRICE, ONE DOLLAR.

Address

CLARK W. BRYAN & COMPANY,

NEW YORK OFFICE, 239 Broadway. SPRINGFIELD, MASS.

BERKSHIRE ELECTRIC CO.

24 North Street, PITTSFIELD, MASS.

ELECTRIC BELLS, ANNUNCIATORS, BURGLAR ALARMS, GAS LIGHTING APPARATUS AND UNDERGROUND CABLES ALL OF THE BEST QUALITY.

Our system of wiring enables us to guarantee reliability.

Speaking Tubes Fitted. Hotel Work a Specialty.

We append one recommendation out of many we have received.

GENTLEMEN:—The Electric Annunciator which you put in this house some time ago has given the most complete satisfaction, never having failed in a single instance, and never having cost a cent for repairs. The annunciator is handsome and the work throughout first class in every respect. We consider your system of wiring ahead of anything in that line which we have seen. We wish you the success which such intelligent and conscientious work deserves.

WILLIAM ST. LAWRENCE,
Proprietor American House, Pittsfield, Mass.

First-class work done for Fine Residences, Hotels etc., throughout the country.

H. S. B. OLD PROCESS.

ROOFING PLATE.

This Roofing Plate is made especially for us under the following guarantee by the makers:

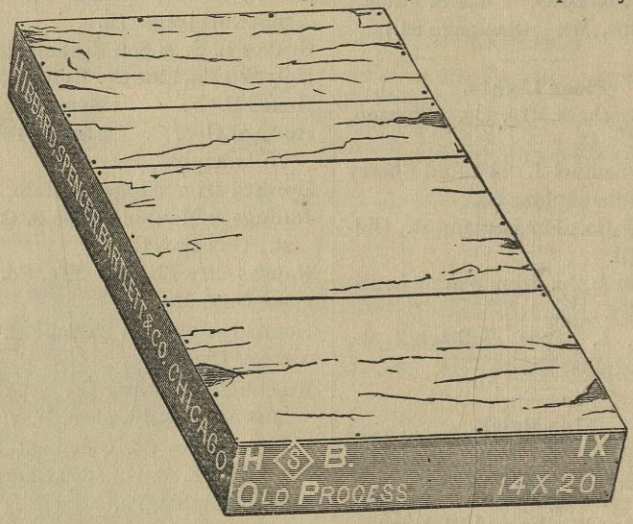
That it shall be made from the best steel procurable.

That the coating and finish shall be equal, if not superior to any Roofing Tin made.

That each and every sheet shall be perfectly coated, and free from all black or untinned spots.

That each box shall be full weight and contain 112 sheets.

These plates are allowed to absorb all the metal they possibly can, and are not passed either through the grease pot or patent rolls, to reduce the quantity.



Ordinary brands of roofing plates have about four pounds of coating on a box of 14 x 20, and eight pounds on 20 x 28 while

H. S. B. OLD PROCESS

has 18 and 36 pounds respectively.

Samples sent free of cost to any Architect or Dealer upon application.

GEER'S ANALYSIS

— OF THE —

SCIENCE OF ACCOUNTS,

AN ADMIRABLE NEW WORK ON

BOOK-KEEPING.

The work covers the whole science of accounts, and the style is so clear and concise that a novice, who thoroughly studies it and indulges in accompanying practice, can become a ready and efficient book-keeper. An explanation of the general principles of accounts, debit and credit, and their classes, occupies the first three chapters. Then follows an explanation of the uses of the day book, journal and ledger, and the student is instructed how to post, to make a trial balance, how to close the entries in a ledger at the end of a year, and to make a balance sheet. Not the least valuable chapter is that which explains the uses of the invoice book, sales book, cash book, deposit pass book, bank check book, settlement journal, commission sales book, account current book, bill book, petty expense book, order book and pay roll tally book. The way to keep the journal of Mr. Geer's invention is explained in such a manner that any one who studies the chapter may be able to put it in practice. The keeping of books for partnerships and corporations is exhaustively explained. A chapter on negotiable paper presents, concisely, all that a business man needs to know about it. A remarkable chapter is one on the keeping of accounts by executors, administrators, trustees and assignees.

PRICE $3.00.—Sent by Mail upon receipt of Price.

GOOD HOUSEKEEPING

Has never before had so rich Bills of Fare to lay before its readers as the ones prepared for the coming Volumes. We name a few of the most appetizing items of the different courses.

A NEW SERIAL BY CATHERINE OWEN.

With practical lessons for the guidance of those who don't know but would like to know, how the Children of the Household should enjoy health and long life.

"HOUSEKEEPING IN AN ENGLISH RECTORY," a very entertaining illustrated paper by a resident of a charming English rectory.

"HOUSEKEEPING IN HONDURAS," with illustrations.

"HOUSEKEEPING IN FLORENCE," with an illustration of the kitchen of writer, who writes of her own observations and experiences.

"SWISS HOUSEKEEPING," by an experienced housekeeper, and at the same time, an entertaining writer.

Coffee Making and Coffee Spoiling.

By the world's best authorities on the subject of Coffee Making,—

MARIA PARLOA, CATHERINE OWEN,
MARION HARLAND, JULIET CORSON,
MRS. HELEN CAMPBELL, MRS. D. A. LINCOLN.

A group of papers more notable and of greater value to housekeepers than anything of the kind ever before published.

Meals for the Many of Moderate Means.

From the pen of Juliet Corson, one of the most experienced and authoritative writers on Cooking, who has had great success and won much fame by her practical writings.

It is the purpose of the conductors of GOOD HOUSEKEEPING, to make the Series valuable to all readers in the Homes of the World wherever found, particularly so in homes where there are many mouths to fill and much anxiety of mind as to how to fill them comfortably, conveniently and healthfully.

Table Supplies and Economies.

This valuable department of "SEASONABLE TABLE SUPPLIES," so ably conducted by Mrs. Fannie A. Benson, contains carefully prepared instruct-

(Continued on page 108.)

ions for marketing economically and well,—giving detailed information as how to buy, what to buy, and when to buy, to the best advantage, having in view convenience, comfort, economy and health.

Quiet Hours with the Quick Witted

Is a department for the Children of the Household, and the children of a larger growth, as well, and well filled with Acrostics, Anagrams, Games, Puzzles, Riddles and the like.

"THE USES AND ABUSES OF SOAP IN THE HOUSEHOLD," by Mrs. Hester M. Poole, who has given the subject critical and careful consideration, and whose valuable papers are always prepared and written with a view of doing "the greatest good to the greatest number" of those who are looking to and laboring for the interests of the Higher Life of the Household.

Our Anagrammatical Entertainments, so entertaining and popular, with valuable prizes for those who may be the first to name correct solutions, will be worth striving for.

In addition to this brief mention of selections for our Bills of Fare, we are warranted in saying they will be far richer and more appetizing than anything we have as yet spread before our readers, and will win, were it possible, even stronger indorsements than such as the following:

MISS PARLOA'S SCHOOL OF COOKERY,

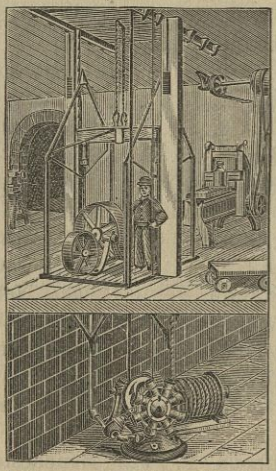
THE AMHERST HYDRAULIC MOTOR CO.,

HOLYOKE, MASS.

Sole Manufacturers of the

Benham Hydraulic Elevator.

The **"BENHAM"** with governor, or cut-off, uses water only in proportion to the load to be carried. The governor shortens the stroke of the pistons, retaining the full pressure of the water on them, thereby using the smallest quantity of water possible for the work to be done, and always keeping the speed steady. On other water motors the governors merely hold back the pressure, to keep the speed steady, and, because of the diminished pressure, use just as much water to carry a light load as for a heavy one.



A glance at the above Illustrations will show that the compactness of the motor is such that it can be placed in a much smaller space than will accommodate any other elevator motor capable of raising a great load. It has no complicated parts, and, consequently, can be easily kept in order. The eight pistons are joined to the crank-pin by short connecting rods, and the latter, with the crank and main journal, are enclosed in the space at the center of the cylinders, which is kept full of oil. By this arrangement all of the connections are constantly running in oil, so that the motor is the most durable and runs with the least noise of any in the market.

The draw or hoist is driven by the worm and gear connected directly with the shaft of the motor, which has a reversible valve so that it can be run in either direction. The necessity of belts and annoyance of tight and loose pulleys are thus abolished, the consequence being that the **BENHAM Water Motor for Elevators and Dumb-Waiters** is the most compact and cheapest of any yet devised. The dumb-waiter motors occupy a space of only two and one-half feet square and the elevator motors one, three and one-half feet square.

The new Benham Motor will be furnished with or without a Register. The use of the Register makes it a complete Meter.

THE AMHERST HYDRAULIC MOTOR COMPANY

also manufacture Motors for running all kinds of machinery.

GOOD STEAM HEATING SAVES YOUR HEALTH.

BETTER THAN GOLD.

That book in many eyes doth show the glory,
That in gold clasps, locks in the golden story.—*Shakespeare.*
There is a jewel which no Indian mine can buy,
No chemic art can counterfeit,
It makes man rich in greatest poverty,
Makes water wine, turns wooden cups to gold.—*Wilbye.*

That jewel is *good housekeeping*, a necessary and all powerful element in the preparation of a specific for the perfection of Home Life, and for the curing of the worst ills to which man and womankind are heirs.

To tell where that jewel may be found, and how it may be made bright and kept beautiful is the mission of GOOD HOUSEKEEPING, "Conducted in the Interests of the Higher Life of the Household, for the Homes of the World," numbering among its long list of practical and distinguished contributors, the best and most noted writers of the day, on subjects pertaining to housekeeping and home-making.

GOOD HOUSEKEEPING is published every other Saturday, Twenty-Six numbers a year, quarto form, finely illustrated, handsomely printed, a Welcome Guest in every Home into which it enters. Subscription price $2.50 a year; Single Copies 10 cents, which may be had from the American News Company, or its agents throughout the country.
